1. About Excel**FIX**

ExcelFIX is the most powerful MS Excel file recovery software on the market. Since its initial release in 1999, ExcelFIX has achieved overwhelming success and has been purchased by some of the largest corporations in the world. To maintain the program's outstanding reputation, Cimaware Software strives to constantly update and improve ExcelFIX to provide clients with the most complete protection against Excel data loss. ExcelFIX, and all Cimaware Software products, comply with ISO 9001:2000 industry standards.

2. Description

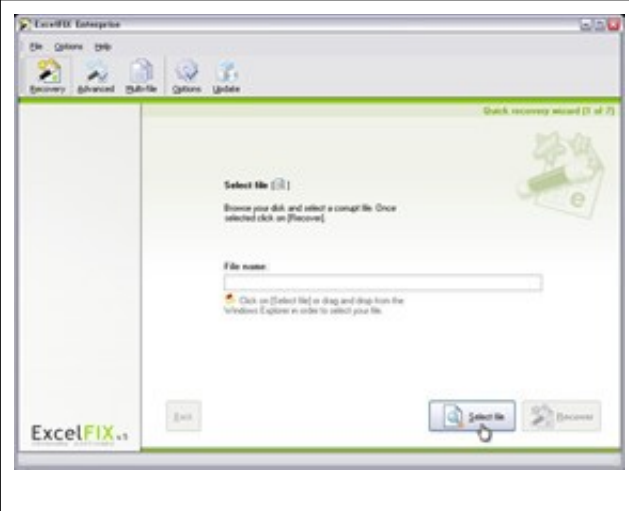

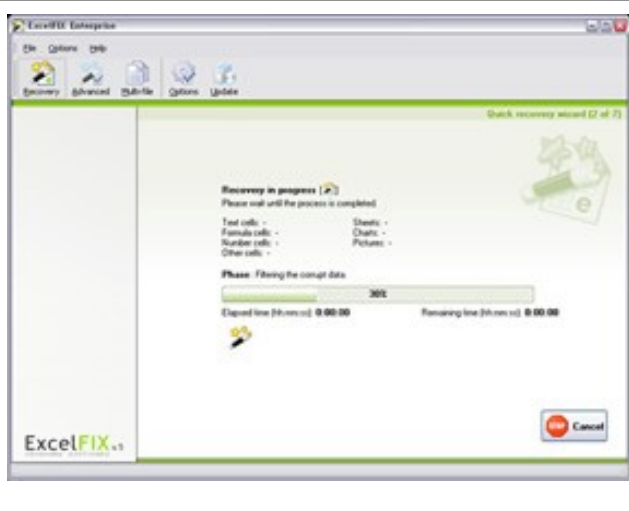

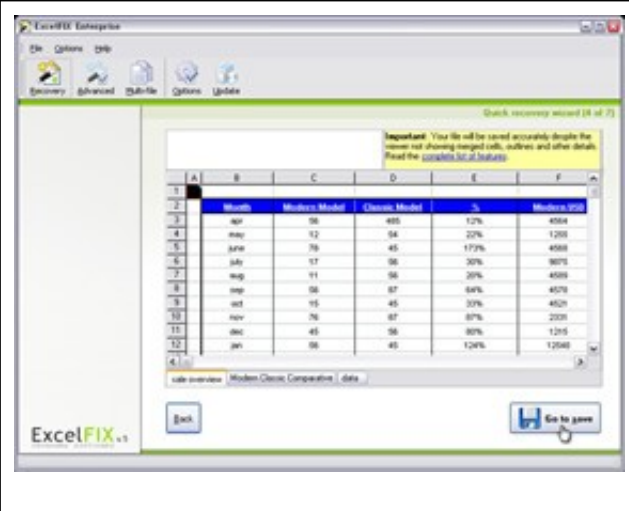

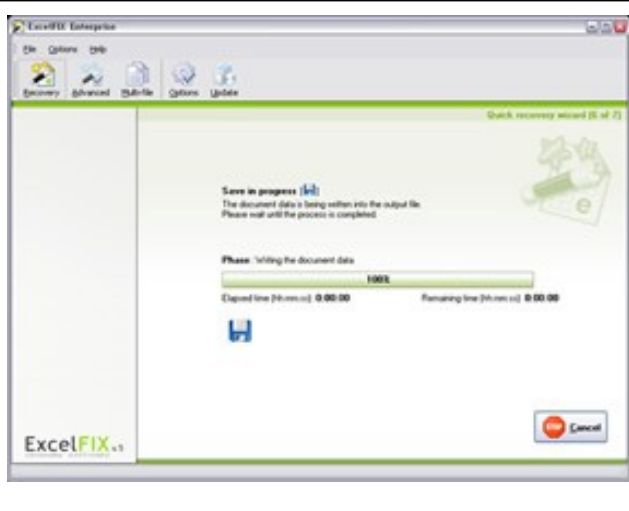

ExcelFIX quickly recovers corrupt files by extracting the data and saving it into new and trouble-free file. ExcelFIX supports MS Excel 95, 97, 2000, XP and 2003.

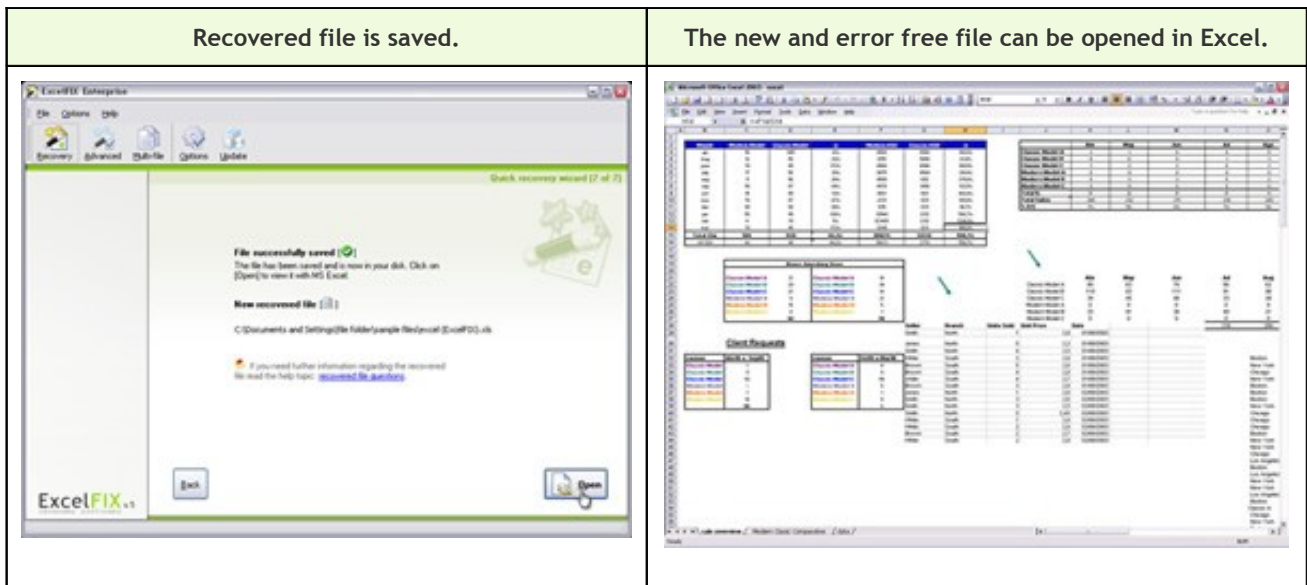

The program is available in a free demo download from the Cimaware Software website. This edition allows the user to diagnose their corrupt file and evaluate the recovery capabilities of the program. The view screen will allow the user to click through and assess the recovered file before purchasing the full edition of the program.

The purchased editions of ExcelFIX available are Standard, PRO and Enterprise. ExcelFIX Standard recovers basic file information including formulas, texts and the multi-sheet structure of the file. ExcelFIX PRO recovers the everything that ExcelFIX Standard does as well as formats including: column widths, row heights, colors, fonts, borders, numbers, date and time formats, charts, pictures, embedded objects, comments, merged cells, outlines and "Lost String" corruptions. ExcelFIX Enterprise adds a Batch Recovery feature that allows for the simultaneous recovery of multiple files. The ExcelFIX demo can be configured into any of the three editions for evaluation.

3. How It Works

The intuitive user interface makes file recovery a simple task even for the novice user.

4. How To Purchase

We understand that time is crucial in the event of data loss. For this reason we have created a streamlined ordering process in which clients can have access to ExcelFIX within minutes, at any time and from anywhere in the world.

Orders can be placed with a credit card (Visa, Master Card or American Express) over our secure order site. Within 10 minutes the user will automatically receive an email containing the instructions to download the fully functional program from our server.

We also accept payment via bank transfers and purchase orders and have resellers in more than 50 countries. Please contact a customer service representative for more information at sales@cimaware.com

5. New

In order to provide our customers with the best possible protection against data loss, we are always updating and improving all of our products. ExcelFIX in particular is in constant development and new versions are released on a monthly basis. Our programmers are currently working on the next major release of the software which will contain advanced features such as the recovery of macros and modules.
