1. About Outlook**FIX**

OutlookFIX is one of the most powerful MS Outlook .pst recovery and undelete software on the market. Since its initial release in November 2005, OutlookFIX has been very successful and has been purchased by some of the largest corporations in the world. To maintain the program's quickly won and fantastic reputation, Cimaware Software strives to constantly update and improve OutlookFIX to provide clients with the most complete protection against Outlook data loss and for all their undelete needs. OutlookFIX, and all Cimaware Software products, comply with ISO 9001:2000 industry standards.

2. Description

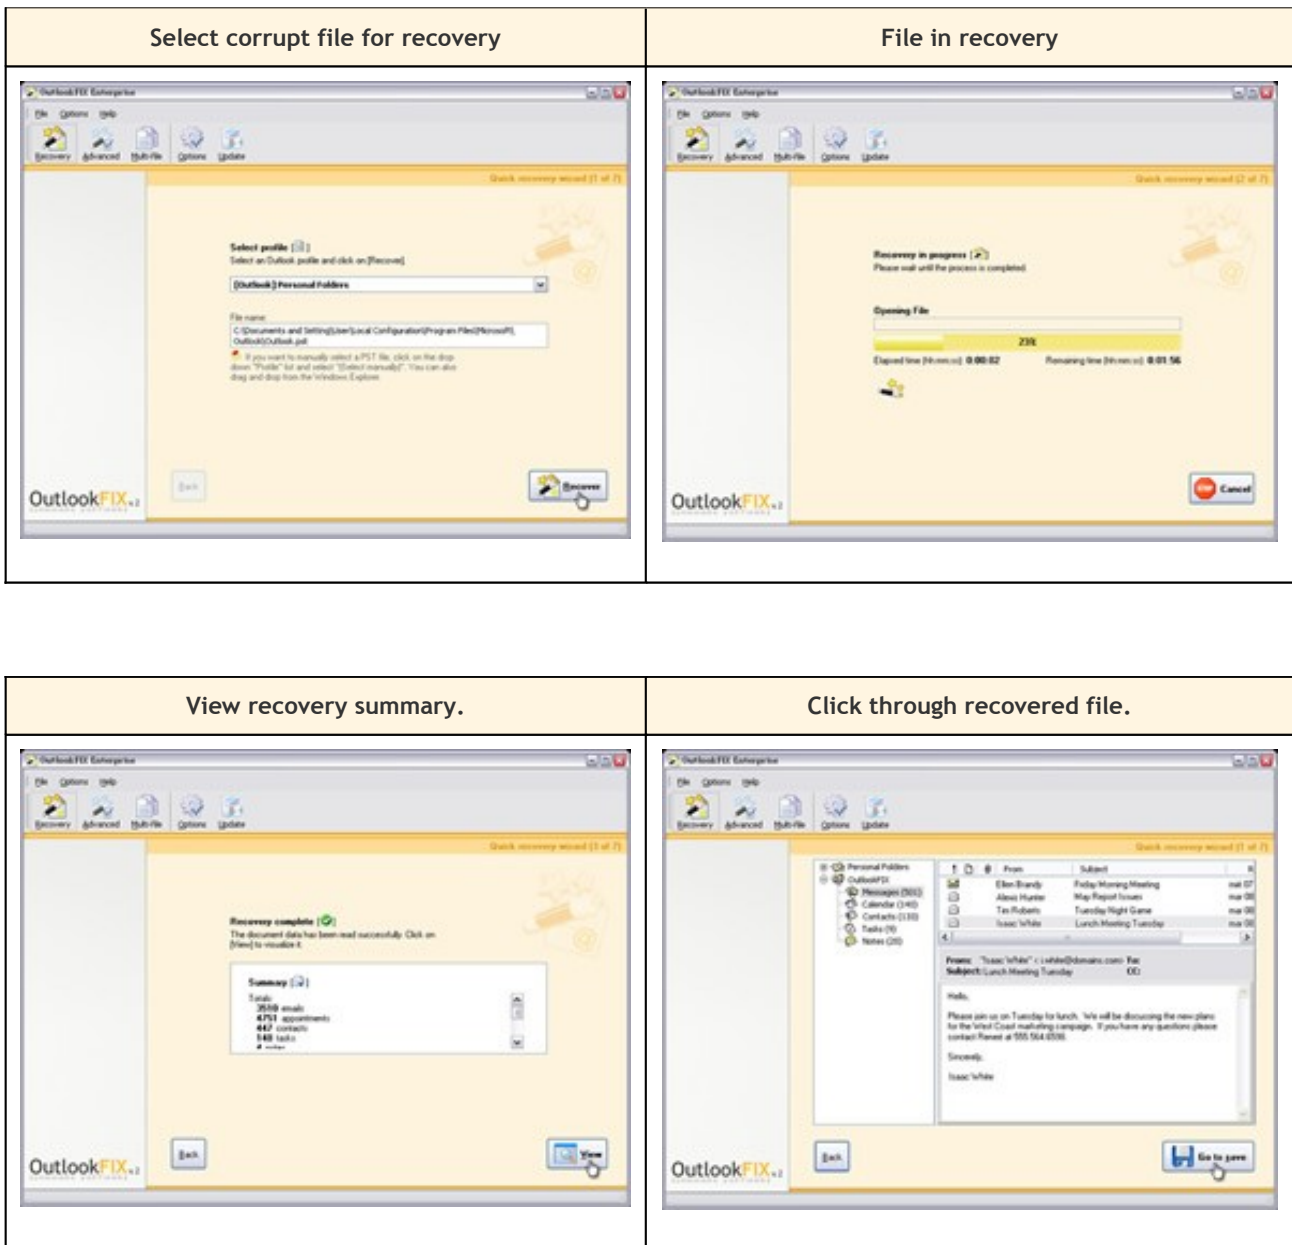

OutlookFIX recovers corrupt files by extracting the data and saving it into new and trouble-free file. OutlookFIX supports MS Outlook 95, 97, 2000, XP, 2003 and 2007.

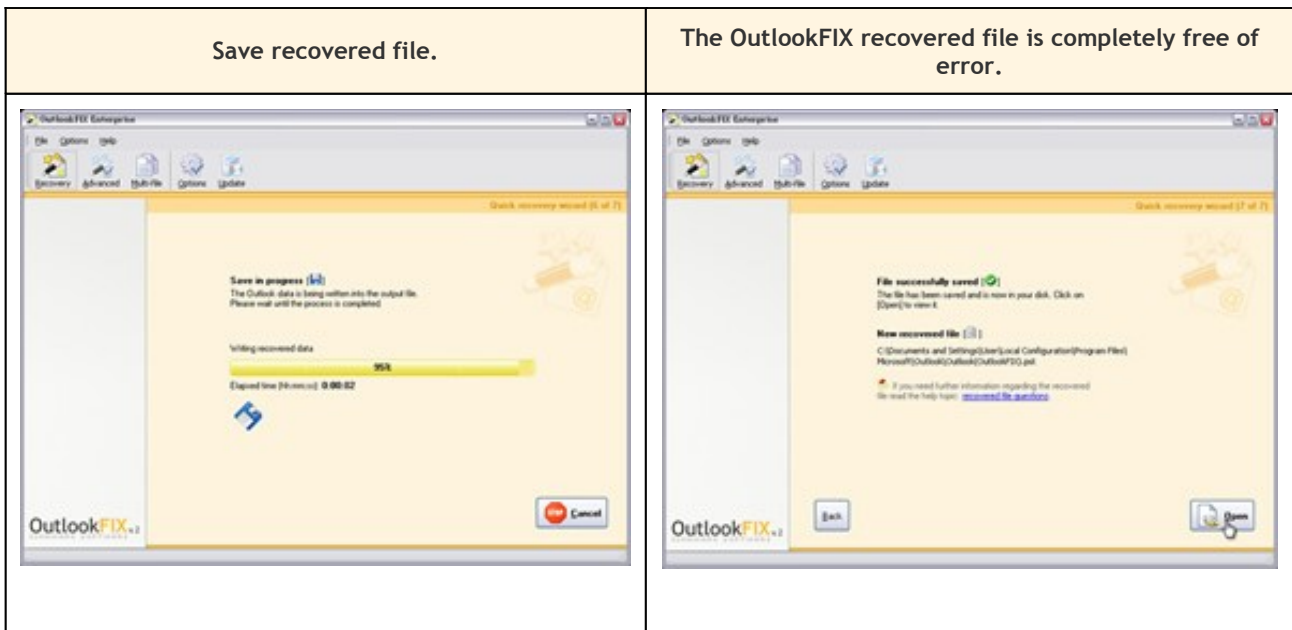

The program is available in a free demo download from the Cimaware Software website. This edition allows the user to diagnose their corrupt file and evaluate the recovery and undelete capabilities of the program. In the viewer the user can view and click through their recovered emails, calendar items, notes and contacts.

The purchased editions of OutlookFIX available are PRO and Enterprise. OutlookFIX PRO restores emails, contacts, calendars, notes, tasks and attachments as well as previously deleted items. It can recovery password protected files (that are not encrypted). OutlookFIX PRO allows the user to limit the size of the .pst and split it into various files. In this way, the user avoids future corruptions due to MS Outlook's 2GB limit. The Enterprise edition recovers these same elements and includes a Batch Recovery feature that allows for the simultaneous recovery of multiple files. The demo edition of OutlookFIX can be configured into either of the two editions for evaluation.

3. How It Works

The intuitive user interface makes file recovery a simple task even for the novice user.

4. How To Purchase

We understand that time is crucial in the event of data loss. For this reason we have created a streamlined ordering process in which clients can have access to OutlookFIX within minutes, at any time and from anywhere in the world.

Orders can be placed with a credit card (Visa, Master Card or American Express) over our secure order site. Within 10 minutes the user will automatically receive an email containing the instructions to download the fully functional program from our server.

We also accept payment via bank transfers and purchase orders and have resellers in more than 50 countries. Please contact a customer service representative for more information at sales@cimaware.com

5. New

In order to provide our customers with the best possible protection against data loss, we are always updating and improving all of our products. OutlookFIX, as a newer addition to our recovery utilities, is in constant development and new versions are released on a monthly basis.
