1. About WordFIX

WordFIX is a powerful MS Word recovery utility. Since its initial release in July 2002, WordFIX has achieved great success and has been purchased by some of the largest corporations in the world. To maintain the program's reputation, Cimaware Software strives to constantly update and improve WordFIX to provide clients with the most complete protection against Word data loss. WordFIX, and all Cimaware Software products, comply with ISO 9001:2000 industry standards.

2. Description

WordFIX quickly recovers corrupt files by extracting the data and saving it into new and trouble-free file. WordFIX supports 2003, 2002 (XP), 2000, 97, 95, 6.0, 2.0, and Word for Macintosh.

The program is available in a free demo download from the Cimaware Software website. This edition allows the user to diagnose their corrupt file and evaluate the recovery capabilities of the program. WordFIX saves the recovered document with the word DEMO blocking out some of the text.

The purchased editions of WordFIX available are Standard, PRO and Enterprise. WordFIX Standard recovers text (including Eastern languages and special characters from Latin based and Germanic languages), table data, embedded HTML, and basic document formatting. WordFIX PRO recovers everything WordFIX Standard does as well as headers and footers; images, charts and drawings; table of contents and glossaries; hyperlinks and bookmarks; and page, paragraph, font and style formatting. WordFIX Enterprise adds a Batch Recovery feature that allows for the simultaneous recovery of multiple files. The demo edition of WordFIX can be configured into any of the three editions for evaluation.

4. How To Purchase

We understand that time is crucial in the event of data loss. For this reason we have created a streamlined ordering process in which clients can have access to WordFIX within minutes, at any time and from anywhere in the world.

Orders can be placed with a credit card (Visa, Master Card or American Express) over our secure order site. Within 10 minutes the user will automatically receive an email containing the instructions to download the fully functional program from our server.

We also accept payment via bank transfers and purchase orders and have resellers in more than 50 countries. Please contact a customer service representative for more information at sales@cimaware.com

4. New

In order to provide our customers with the best possible protection against data loss, we are always updating and improving all of our products. WordFIX in particular is in continual development and new versions are released on a monthly basis.
